## CERTIFIED FULL STACK DEVELOPER

Lahore, Pakistan | +923074799899 | [abdulrafaych53@gmail.com](mailto:abdulrafaych53@gmail.com) | [github.com/abdulrafay553](https://github.com/abdulrafay553) | [www.linkedin.com/in/abdul-rafay-179294297](https://www.linkedin.com/in/abdul-rafay-179294297)

## ABOUT

---

Proficient Full Stack Web Developer with expertise in Laravel, MEAN, and MERN stacks. I've got the whole web development process covered, from concept to deployment. With a solid foundation in both frontend and backend technologies, I'm committed to creating strong and scalable solutions that meet the unique demands of each project. Constantly staying updated with the latest industry trends, I bring a passion for clean and efficient code, ensuring optimal user experiences. Let's connect and explore the possibilities of collaboration in the dynamic world of web development.

## EDUCATION

---

Intermediate in Computer Science

2021 – 2023

Govt. Islamia Graduate College Civil Lines, Lahore

## CERTIFICATION

---

PNY Trainings | Full Stack Web Developer

08/2023 – 02/2024

Completed a Full stack web development course covering frontend and backend technologies, including HTML, CSS, JavaScript, PHP, MySQL, CSS frameworks, Laravel, MEAN and MERN stack. Acquired hands-on experience in building responsive and dynamic web applications, deploying RESTful APIs, and utilizing databases for data storage and retrieval. Fulfill the duties of a Full Stack Web Developer intern at PNY Trainings.

- Proficiency in HTML, CSS, and JavaScript for developing interactive user interface. Enhancing my skills in both MEAN and MERN stack technologies.
- Experience with modern frontend frameworks such as React.js for building dynamic web applications.
- Knowledge of backend development using Node.js and Express.js for server-side logic and routing.
- Familiarity with NoSQL databases like MongoDB for efficient data management.
- Ability to develop RESTful APIs to facilitate communication between the frontend and backend.
- Understanding of version control systems like Git for collaborative development projects.

## EXPERIENCE

---

- **PNY Trainings | Full Stack Web Developer Intern** **08/2023 – 02/2024**
- **CognoRise InfoTech | Web Development Internship** **06/2024 – 07/2024**
- **CodeAlpha | MERN Stack Developer Intern** **06/2023 – 09/2024**

## PROJECTS

---

### **Shopping Website** **09/2023 – 11/2023**

I designed a shopping website project at PNY Trainings. The website features an appealing and responsive design that is compatible with desktop and mobile devices. I utilized a technology stack including HTML, CSS, Bootstrap, JavaScript, MySQL, and PHP to develop the website. Additionally, I incorporated user registration and login capabilities, as well as a shopping cart system that allows users to manage their items and an order product system.

### **Book Shop and Library** **12/2023 – 03/2024**

I completed my project at PNY Trainings by working on a book shop and online library. I designed a visually appealing and user-friendly website that is compatible with both desktop and mobile devices. To develop the website, I utilized the MERN stack. I incorporated user registration and login features, as well as a shopping cart system that allows users to add and remove items. Additionally, I provided the option for users to download book PDFs online. Furthermore, I implemented a payment processing function and created an admin panel for CRUD operations.

## Skills

---

- HTML
- CSS
- JavaScript
- PHP
- Angular JS
- Socket.io
- React JS
- Laravel
- Bootstrap
- Tailwind CSS
- Material UI
- Next JS
- Express JS
- MySQL
- Node JS
- MongoDB
