Database: MongoDB, MySQL, Firebase.

Programming Languages: JavaScript, TypeScript, PHP, C.

Tools: Git, GitHub, AWS, Heroku, Vercel, Netlify, MS Office (Excel, Word, PowerPoint), Google Workspace.

Soft Skills: Client Communication, Problem-Solving, Time Management, Team Collaboration.

EXPERIENCE

Full Stack Web Developer Intern | PNY Trainings

06/2023 – 11/2023

- Developed 5+ full-stack web applications using MERN stack and Laravel, improving deployment efficiency by 20%.
- Designed RESTful APIs and integrated third-party services, enhancing functionality for 3 projects.
- Implemented a responsive UI with Bootstrap & Tailwind CSS, increasing mobile usability by 30%.
- Managed MongoDB and MySQL databases, optimizing queries for 15% faster performance.
- Collaborated in Agile teams using Git/GitHub, delivering projects 10% ahead of schedule.

MERN Stack Developer Intern | CodeAlpha

06/2024 – 09/2024

- Built and maintained 4 dynamic web applications with React.js and Node.js, reducing bugs by 25%.
- Optimized MongoDB schemas, improving application scalability for users.
- Integrated APIs and managed state with Redux, enhancing frontend-backend sync by 30%.
- Conducted code reviews, improving team code quality by 15%.

Web Development Intern | CognoRise InfoTech

06/2024 – 07/2024

- Developed 3 web solutions using HTML5, CSS3, JavaScript, and PHP, boosting usability scores by 20%.
- Supported backend scripting and MySQL queries, cutting data retrieval time by 10%.
- Deployed applications on AWS and Heroku, ensuring 99.9% uptime.

Sales and Marketing Agent | Infinity Tech Solutions

03/2024 – 06/2024

- Managed CRM tools to track 200+ client interactions, increasing sales conversions by 15%.
- Created Excel reports and PowerPoint presentations, streamlining client updates by 25%.
- Translated client needs into technical requirements, aiding 5+ development projects.
- Gained client experience, which enhanced my ability to understand user requirements and translate them into technical solutions.

PROJECTS

Ecommerce Website

07/2023 – 08/2023

- Built a responsive shopping platform with HTML5, CSS3, Bootstrap, JavaScript, PHP, and MySQL.
- Implemented user login, cart, and order systems, handling 500+ mock transactions securely.

Book Shop and Online Library

09/2023 – 11/2023

- Developed a MERN stack application with payment integration and CRUD admin panel.
- Designed a user-friendly interface with features like user registration/login, payment integration, shopping cart, and PDF downloads.

Real-Time Chat Application

12/2023 – 01/2024

- Created a Socket.io-powered chat app with Express.js, Handlebars, and Bootstrap.
- Designed a dynamic and responsive frontend interface using Handlebars for server-side rendering.
